

The 7th International Conference on Biochemistry and Molecular Biology

“Challenges in Biochemistry to Overcome Pandemics and Disruption”

WELCOME MESSAGE

Associate Professor Dr. Teerapong Buaboocha

Chair of the Biochemistry and Molecular Biology Section

As Chair of BMB Thailand, it is my great pleasure meeting you via this online platform. This is the 7th edition of our BMB biennial conferences. For more than 4 decades, BMB strives to promote growth and development of biochemistry and molecular biology in Thailand. The section has actively played its role in stimulating knowledge sharing and strengthen research in the field. BMB Thailand has been the home of Thailand's Biochemists and Molecular Biologists that fosters collaboration for the benefit of our community. Networked with various biochemical organizations both local and overseas, we have held several symposia, congresses, meetings, seminars, workshops and educational events. BMB Thailand also grant awards to outstanding scientists and young scientists in the field and sponsors fellowships for young and active members to participate in national and international conferences.

I, on behalf of BMB Thailand, would like to express our heartfelt gratitude to all members of the organizing committee for their dedication to organizing this conference. I am also extremely grateful to all the plenary speakers, keynote and invited speakers, session chairs, co-chairs, reviewers and presentation evaluators for their contribution. Finally, I would like to express our warm welcome to all participants for joining us in this event. Thank you.
